AN EPITAPH OF THE BLOOD CURRENT.

Our vessel of nexus has been bestowed an internal augury, and rude awakening. Amongst the newfound path of the Blood-Current 435 and the overseer Blood Praefectus Vael Nocthyr, the collective corpus and nocturnal flame of which extended to thyself has come to conclusion. What once stood as our digital frequency of undeath, has ultimately been sentenced to silence. The current ov old holds no longer the horrific pass over to come, and in so we find best fit to eliminate the malign tumor. The Noctulian Blood Covenant YouTube channel effective immediately will cease operations and will be deleted.

There cometh a juncture wherein the outward masses have had eye on the projection ov the Current of which must be served. Where the profane glazes ov the masses has lingered too long upon that which was never meant for the common consumption.

With the need for OPSEC improvement sacrifices must be made for the sublimity of death and rebirth. The covenant itself will continue operating as a living organism, but it's publicity withdrawn. The Blood will not vanish, it instead will live out it's existence as a noctivagant entity.

All publications will continue under the Skorge Press, such as the upcoming release of "BLASPHEMARE" coming 7/10/26 via PDF and option of physical paperback.

Past leadership and literature are deemed void. Under the new blood fuhrer and black path; we ask that you refrain from indulging in the consumption of the now defunct titles "CORRECTIVE DISCIPLINE" – as they no longer reflect the terrors to come. We as well are under immense Black Propaganda by such individuals who wish to tarnish the achievement of our very own aeon. Blood-Cell 435 is no longer under the associated few who call themselves Nero, Dark Sadu, or the Order of Iniquity, these are the diseased and deluded few who wish to hinder the authentic praxis.

NOW THE COLLAPSES, BUT THE BLOOD DOES NOT VANISH!
